Event overview

April 30, 2025

7:00 pm to 8:00 pm

Join us for an overview of how to record video in the library's recording station (there is a [separate tour for audio](#)). We will show you how to set up the room and get started with the camcorder/equipment, and provide an overview of the video editing software. We will also show you how to book the room.

All registrants must have a valid library card. Registration is recommended, drop-in while space permits.

Due to the space limitations of the Recording Station, we can admit only three patrons in each session. We also have [video production handouts and tutorials](#) (via LinkedIn Learning).
